Looking south to north on the curved wall.

Looking north to south on the curved wall.

Second floor looking south to north.

Terrazzo floor poured not sanded looking from west to east.

**IT UPDATE:** The interview committee finished up their second interviews on September 14th. After some discussion it was decided to make no offers at the time but to further study the needs of the County. The Supervisors are currently reviewing those needs. In the meantime, everyone is to continue to use the HELP desk. It has been a very valuable tool and will continue to be in place even after an IT Director is hired. Chris Klinghager, currently under contract with the County for IT services, will start coming in the Courthouse for 5 hours every Wednesday. However, you are not to call him directly but make sure you send your problems to the help desk. He will take care of your problem as soon as he can. Alissa will also continue to be under contract and provide as much service and she can remotely. Again, a very **special thank you** to John Miller, who continues to oversee the help desk.
